

**BEFORE**  
prostate surgery

Four weeks  
**AFTER**

### **Robotics gets you back on course sooner.**

Advances in robotic surgery technology can mean an easier recovery. Less postoperative pain. A shorter hospital stay. Even smaller scars.

At Durham Regional Hospital, surgeons are using state-of-the-art robotics for minimally invasive urologic procedures, gynecologic procedures, and weight loss surgery.

Find out if Durham Regional can change what surgery means to you.
